🔗 Portfolio

PROFESSIONAL SUMMARY

Software Developer with 2+ years of experience in Python, FastAPI, Flask, Node.js, MongoDB, and SQL, building scalable backend applications and RESTful APIs. Experienced in designing, developing, testing, and maintaining software solutions, integrating third-party APIs, and optimizing application performance. Strong understanding of object-oriented programming (OOP), data structures, database management, software development best practices, and Git version control. Passionate about developing clean, maintainable, and scalable software solutions.

TECHNICAL SKILLS

- **Languages:** Python, JavaScript (ES6+), TypeScript
- **Backend & APIs:** FastAPI, Flask, Node.js, Express.js, JWT, Microservices, Socket.io
- **Frontend Technologies:** React.js, Next.js, Angular, HTML5, CSS3, Tailwind CSS, Bootstrap
- **Databases:** MongoDB, MySQL, PostgreSQL
- **Cloud & DevOps:** Docker, AWS, Linux, Git, GitHub, Docker, REST APIs
- **Tools & Platforms:** VS Code, Postman, Redis, JWT, GitHub Actions
- **Concepts:** Data Structures, REST APIs, Authentication, API Integration, Debugging, Problem Solving.

PROFESSIONAL EXPERIENCE

Associate Software Developer

Feb 2024 – Present | Pune, Maharashtra

Clodura.ai

- Developed scalable backend services using **Python (FastAPI, Flask)** and designed RESTful APIs for subscription lifecycle management, including trials, renewals, upgrades, cancellations, invoicing, and webhook processing.
- Implemented multi-currency billing and integrated third-party services to support global subscription workflows.
- Built secure **REST APIs** for subscription management, user operations, email automation, and third-party integrations like **Zoho** and **Chargebee**.
- Optimized **MongoDB** and **SQL** queries, improving application performance and reducing redundant API calls by ~30% using **Redux Toolkit** (RTK Query).
- Containerized backend applications using **Docker** and implemented SMTP-based email notification workflows for automated communications.
- Enhanced the Sequence module by improving workflow execution, backend architecture, application reliability, and overall system performance.
- Developed reusable UI components and contributed to Next.js frontend modules, improving maintainability and user experience.

PROJECTS

URL Shortener (BRIEFLY) 🔗

GITHUB 🔗

- Briefly, a tool for generating shortened links from lengthy website addresses, enhancing user experience.
- Implemented user authentication, including Sign In and Sign Up features, ensuring secure and responsive access.
- Implemented JWT authentication and OAuth-based Sign-In/Sign-Up.
- Tech Stack: HTML, CSS, JavaScript, Redis, Express.js, MongoDB, JWT

BookBot 🔗

GITHUB 🔗

- Developed an AI-powered book chatbot using Python, Flask, LangChain, and OpenAI.
- Implemented RAG with Pinecone and vector embeddings for context-aware responses.
- Built REST APIs for document processing and AI-powered question answering.
- Tech Stack: Python, Flask, LangChain, OpenAI, Pinecone, Tiktoken, HTML, CSS, JavaScript

EDUCATION

Full Stack Web Development | Full Time

Masai School, Bangalore

Oct 2022 – Jul 2023 | Bangalore, Karnataka

Bachelor's In Computer Application

L.S.College, Muzaffarpur

Sep 2017 – Apr 2020 | Muzaffarpur, Bihar

CERTIFICATE

- Full Stack Web Development 🔗
