

Saloni Kumari

Full Stack & Backend Developer

✉ salonishalu2000@gmail.com ☎ +91 8102481833 🔗 LinkedIn 🔄 Github 📁 Portfolio 📍 Bihar, India

PROFESSIONAL SUMMARY

Software Developer with 2+ years of experience in backend and full-stack web development. Skilled in Python, FastAPI, Flask, JavaScript, Angular, React, MongoDB, SQL, and REST API development. Experienced in developing scalable applications, integrating third-party APIs, optimizing database performance, and implementing secure authentication mechanisms. Strong understanding of software development best practices, version control with Git, and containerization using Docker. Committed to building high-quality, user-focused applications and continuously improving technical expertise.

TECHNICAL SKILLS

- **Languages:** Python | JavaScript | TypeScript
- **Backend:** FastAPI | Flask | Node.js | Express.js | REST APIs | JWT Authentication | Microservices | WebSockets
- **Frontend Technologies:** React.js | Angular | Next.js | TypeScript | HTML5 | CSS3 | Tailwind CSS | Bootstrap
- **Databases:** MongoDB | MySQL | PostgreSQL
- **Cloud & DevOps:** Docker | AWS | Linux | Git | GitHub | GitHub Actions | CI/CD
- **Tools & Platforms:** VS Code | Postman | Redis | Figma
- **Concepts:** Data Structures & Algorithms | Authentication & Authorization | API Integration | Debugging | Problem Solving | OOPs concept

PROFESSIONAL EXPERIENCE

Associate Software Developer

Feb 2024 – Present | Pune, Maharashtra

Clodura.ai

- Developed and maintained scalable backend applications using **Python, FastAPI, and Flask**, delivering secure and high-performance RESTful APIs for subscription, billing, and customer management workflows.
- Engineered and enhanced **10+ REST API endpoints** and CRUD services, improving application functionality and supporting seamless integration with frontend applications.
- Integrated **Zoho Subscriptions, Chargebee, and Stripe** to automate subscription lifecycle management, payment processing, invoice synchronization, and webhook-driven workflows, significantly reducing manual intervention.
- Built and maintained **automated background schedulers (Cron Jobs)** for trial expiration, subscription renewals, AI credit allocation, and database synchronization, improving operational efficiency and data consistency.
- Designed and optimized data models and queries using **MongoDB, MySQL, and PostgreSQL**, ensuring reliable data storage and efficient retrieval for business-critical operations.
- Developed and maintained **microservices** with JWT-based authentication, enabling secure communication and modular application architecture.
- Collaborated with frontend developers to integrate backend services with **Angular and Next.js**, delivering new features and improving the overall user experience.
- Implemented **webhook-based event processing** for real-time synchronization across multiple third-party platforms, increasing system reliability and reducing processing delays.
- Diagnosed and resolved production issues through debugging, performance optimization, and code enhancements, contributing to improved application stability.
- Leveraged **Docker, Git, GitHub, Postman, Linux, and AWS** to streamline development, testing, deployment, and collaboration in Agile development environments.
- Contributed to AI-powered product capabilities by integrating external AI APIs and backend services, enabling intelligent automation and enhanced user workflows.

PROJECTS

URL Shortener (BRIEFLY)

GITHUB

- Briefly, a tool for generating shortened links from lengthy website addresses, enhancing user experience.
- Implemented user authentication, including Sign In and Sign Up features, ensuring secure and responsive access.
- Implemented JWT authentication and OAuth-based Sign-In/Sign-Up.
- Tech Stack: HTML, CSS, JavaScript, Redis, Express.js, MongoDB, JWT

BookBot

GITHUB

- Developed an AI-powered book chatbot using Python, Flask, LangChain, and OpenAI.
- Implemented RAG with Pinecone and vector embeddings for context-aware responses.
- Built REST APIs for document processing and AI-powered question answering.
- Tech Stack: Python, Flask, LangChain, OpenAI, Pinecone, Tiktoken, HTML, CSS, JavaScript

EDUCATION

Full Stack Web Development Full Time <i>Masai School, Bangalore</i>	Oct 2022 – Jul 2023 Bangalore, Karnataka
Bachelor's In Computer Application <i>L.S.College, Muzaffarpur</i>	Sep 2017 – Apr 2020 Muzaffarpur, Bihar

CERTIFICATE

- Full Stack Web Development [↗](#)
